News from Vietnam

We have received another email from our orphanage in Vietnam, which we would like to share with you. It also answers some of the questions that we received and gives more information on our sponsored child:

Dear (Ms) Corinna,

Thank you very much for your last email. We are glad to know that you are happy and healthy. (The girl) Diem has often wished to see you and (Mrs) Daniela.

Below we are answering some of your questions:

Currently, there are some 96 children at the center that we care for.

Most of the children are orphans, some children come from other towns and some children were (after being born) dropped of at the hospital or in front of our center.

The children that were deserted, are in most cases handicapped. Some are assumed to be suffering from the effects of "Agent Orange".

The parents of the orphans have died during floods, accidents at work and from disease (mainly caused by poverty). Children that don't have a home were supported by the town and brought to us.

Diem has a twin brother, Phuc. They were deserted by their parents, therefore, they are raised at the orphanage.

Currently, it's rainy season. The children have already been back to school for two months. They are well-behaved and try to study hard. Diem's teacher has praised her for being very well-behaved and studying very much

We have finished building the rooms for the handicapped children, so they are ready for use during the rainy season. We are very happy about this.
